The new **SOLO 2 Energy and Power Meter** will be more ergonomically shaped; with a wide screen 2 times bigger than the SOLO-PE, a transfer rate 20 times faster and the ability to read high repetition rate energy detectors up to 3 kHz.

The new **UNO Power Meter** will present the same inventive ergonomics as the new **SOLO 2**; a wide screen with large digit and easy one-finger navigation, but in a very affordable package that includes the most useful functions.

Once again, with its **SOLO 2** and **UNO** monitors, Gentec-EO is raising the bar for the highest quality/price ratio meters on the market.

**UNO**

**MONITOR**  
Laser Power Meter

- Simple to use, ergonomically designed
- Reads all power detectors  
(including photo detectors)
- Unbeatable price!
